SUMMARY

Product designer with 4+ years shipping consumer fintech and B2B SaaS at Sycamore, a digital bank serving 400K+ users across loans, savings, investments, and multi-currency wallets. Recently promoted to Senior for owning end-to-end redesigns that lifted retention 30% and onboarding conversion 20%. Strong in research-driven design, scaled design systems, and AI-assisted workflows for rapid ideation.

SKILLS

Design & Research: User research (qualitative + quantitative), usability testing, heuristic evaluation, customer journey mapping, information architecture, A/B testing, accessibility (WCAG)

Tools: Figma, FigJam, Miro, Notion, Coda, Jira, Slack, UX Pilot, Claude, Google Meet

Systems & Strategy: Design systems, design tokens, component libraries, micro-interactions, prototyping

AI-Assisted Workflows: UX Pilot, Figma Make, Claude — rapid ideation, prototyping, content drafting

EXPERIENCE

Sycamore — Consumer fintech • Lagos, Nigeria (Hybrid)

Senior Product Designer, Jan 2026 — Present (Promotion)

Product Designer, Sept 2022 — Dec 2025

- Led the redesign of Sycamore's Loan Application flow end-to-end, contributing to **\$9.7M** in disbursed loans **in the first 4 months of launch**.
- Led the redesign of the transfer & multi-currency Wallet flows, contributing to a **30% lift in customer retention** and a **20% improvement in onboarding conversion** across 400K+ registered users.
- Designed Sycamore's real-time analytics dashboard for the internal Core Banking System, used daily by operations and product teams to monitor customer health and transaction flow.
- Led and built Sycamore's cross-platform design system, in collaboration with other designers, **reducing design iteration time by 40%** and bringing visual consistency across 6+ product surfaces.
- Designed and launched "Events by Sycamore", a fintech-integrated event platform — **sold 2,000+ tickets across 10+ events in its first 4 months**.
- Designed "Quickly", a brand-campaign game that drove **2,000+ plays & 100+ new signups in 48 hours**.

Bedrock Residence — Proptech • Remote (Contract)

UI/UX Designer, Jun 2024 — Dec 2024

- Designed iOS + Android property management app connecting residents and facility managers; built a scalable style guide adopted across the product line.

Garden Academy — Edtech • Remote (Internship)

Product Design Intern, Dec 2021 — Aug 2022

- Led the research workstream (team of 5) — surveys, interviews, competitor analysis, personas, and journey maps — informing the platform's first product release.

EDUCATION

B.Sc. Economics & Psychology — University of Nigeria, Nsukka • 2020
